FINDINGS SUMMARY

The investigation for the renewal of the licensee, did not uncover any inconsistencies and with the exception of the Articles of Incorporation being non-compliant, no other major area of concern was noted.

This licensed establishment does not serve a large quantity of alcoholic beverages and has not posed a problem during the past year for the Police Department.

In considering the application for renewal, there does not appear to be a sufficient reason at this time, to warrant denial of the license renewal request for the licensed establishment for the upcoming year.
